CATALOGO 2024

Acerca de Nosotros

Todos nuestros productos son fabricados semi artesanalmente, cada una de las colecciones son diseñadas desde su idea original considerando diversos elementos como: pastas, esmaltes, procesos de formado y de quema, brindando a cada línea un carácter único.

Mientras que un proceso industrial puede manufacturar una pieza en menos de una hora, sin haber sido nunca trabajada por manos humanas, el proceso artesanal puede llegar a tomar hasta 20 días por pieza, dependiendo de su tamaño, proceso y complejidad. Por tanto, la diferencia entre una y otra es inmensa. Sin menospreciar los productos industriales, estos carecen del carácter, la personalidad y originalidad que siempre tendrán los productos artesanales. Nuestros artesanos utilizan procesos milenarios; no es fácil que la tecnología reemplace el resultado de la genialidad humana.

Debido a este proceso artesanal, cada pieza es única y la variación que existe en apariencia es inherente a su proceso de producción, lo que aumenta la belleza de nuestras colecciones.

LA EXQUISITA INTERSECCIÓN
DE CLÁSICO Y CONTEMPORÁNEO
EN MOSAICOS Y PIEZAS SENCILLAS
PERO SOFISTICADAS.

A high-magnification scanning electron micrograph (SEM) showing the intricate, three-dimensional lattice structure of a diamond. The image displays a complex network of interconnected, faceted crystalline regions. The surfaces are highly reflective, creating bright highlights and deep shadows that emphasize the sharp edges and flat facets of the crystal. The overall appearance is that of a highly ordered, geometric network. A white rectangular box is overlaid on the lower right portion of the image, containing the word "ATMOS" in bold, black, sans-serif capital letters.
