"Shoe Capital".

ABOUT US...

We are a 100% Mexican company founded in 1989 and established in León, Guanajuato, known as the "Footwear Capital of the world". We have remained among the best tanneries worldwide thanks to our quality and service. During our production, frequent controls are maintained to verify compliance with quality standards.

SPECIALIZED IN VEGETABLE TANNING

Our quality standards and service policies allow us to reach new clients in other countries and maintain the relationship with current clients.

THIS YEAR WAS OUR
35TH ANNIVERSARY

The difference between **vegetable tanning** and chrome tanning is that it is a material that comes from plant extracts so they are **not aggressive chemicals** towards nature.
