This section, located closest to the animal's torso, is primarily used for crafting products that require flexibility and softness, such as linings, belts, and certain types of apparel.

Tiras de Cuero 100% curtido Vegetal

We offer high-quality vegetable-tanned leather strap cutting, ideal for crafting durable and stylish belts. We work with 100% vegetable-tanned shoulder leather and harness or culatta bends to ensure the best leather for belt production.

Thicknesses: We can cut straps ranging from 2 mm to 5 mm

Selecciones: TR1, TR2 y TR3

Colors: Natural or finished in Marfil's base color palette

Suelas Suajadas de Cuero curtido 100% Vegetal para Calzado Premium

We provide die-cut soles made from 100% vegetable-tanned leather, precisely cut to your specifications. Ideal for handcrafted and high-quality footwear, our soles offer durability, comfort, and a natural appearance. Suitable for shoes, heel covers, and heel pads — perfect for boots or western-style footwear.

Available pressing options: Unpressed / Soft / Medium / Firm

Finish options: Raw / Unpolished / Finished

Available thickness: 3.5 – 6 mm (7–11 Iron), or 3.5 mm – 5.5 mm
