

ITALMEC
PREMIUM MOLDS + DESIGN LAB

www.italmec.mx

WHO WE ARE

1993 1995 2001 2014 2019 2021

A one-stop shop for the molds you need to produce your shoes. It's what we do. With more than 20 years of experience in every facet of the molds business, we've become the trusted partner for prestigious brands and startups alike.

We take the time to get to know your molds needs, and through our **design laboratory** we study your project. We fully develop from sketch, through blue print to 3D models and 5 axis milled wooden model, we have in-house aluminum foundry and we cut aluminum and steel in our 3 and 5 axis CNC machinery, to ensure the results we test in our TPU – TPE and Rubber machines.

It's a process born of our own founder's drive for excellence. Marco Gobbi beginning studying shoes designer in Italy at the age of 20 (on 1993), was CAD/CAM designer/manager at 22, Marco's entrepreneurial spirit drove him to found on 2001 a Mexico mold shop and since that time he and a team of dedicated employees have grown the company into a truly global enterprise with hi technology manufacturing resources and a penchant for constant innovation.

FACILITY

Moldshop area: **23.500 ft²**

Foundry area: **6.500 ft²**

Total floor area: **30.000 ft²**

20 min far from airport, close to the main hotel area

Address:

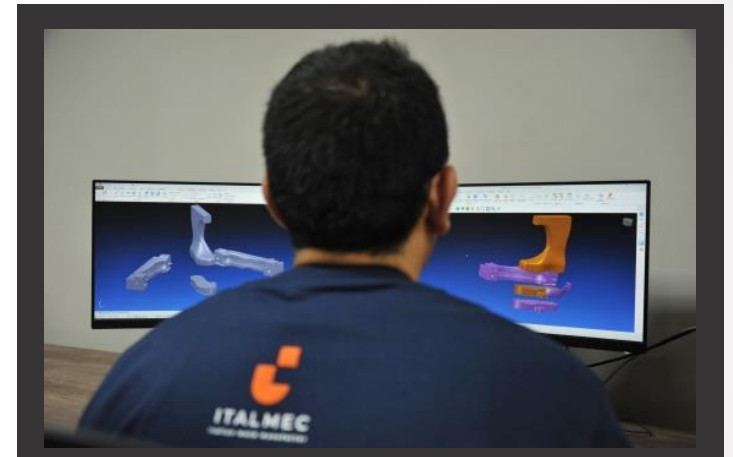

Bld. Aeropuerto 194B
Fracc. Industrial Delta
37545 Leon Guanajuato

Tech department

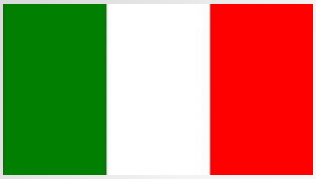

7- CAD and CAM stations with **Delcam PowerMILL** and **Delcam PowerSHAPE** softwares

2 - Reverse engineering digitizers laser and contact

3 - 3D printer resin printers

Workshop and milling machines

8 CNC machinery
2 five-axes and **6** three axes
1 CNC full operated with Robot system

Production capacity: **960** moulds per year

Testing department

1 EVA inyecion testing machine

1 Inyecction testing machine, two color for TPU and TPE

1 full plastick shaft/outsole, outsole/shaft or tree colors PVC/TPE

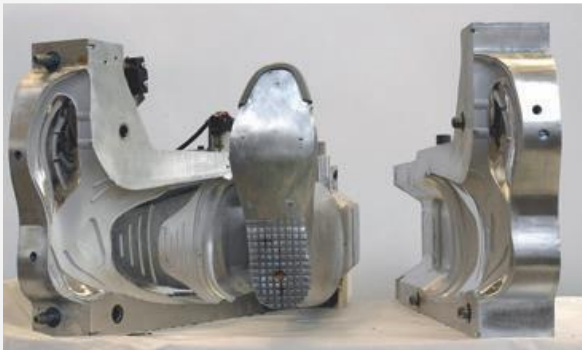

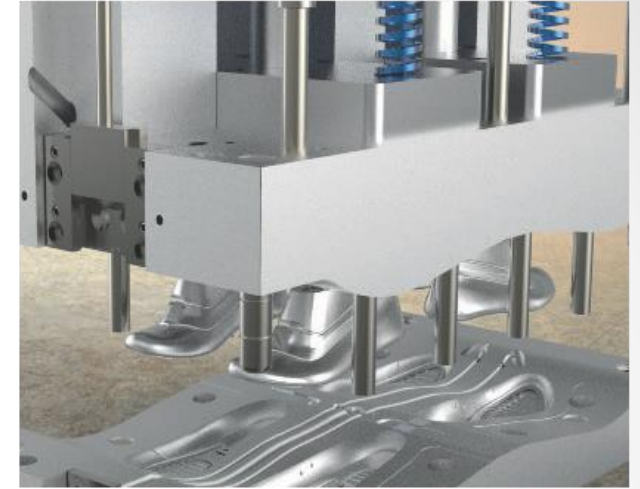

1 Rubber compression testing machine

1 Desma direct inyecction on to upper testing machine

Molds production

TPU, TPE injection molds
EVA boots, shoes and outsoles
RUBBER steel molds
PU direct injection, boots
PVC boots, sandals, direct injection

Some products injected with our Molds

EVA rain boot

Direct injection on to upper TPU - PU

Rubber – Phylon
Outsoles

Full EVA

Three colors SEBS
safety boot with Steel
toe and Steel plate

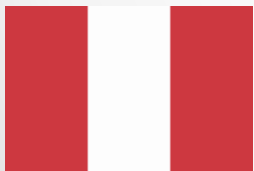

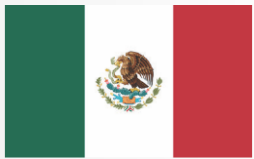

Rubber compression
outsole (steel mold)

Export sales department

Customers in North, Central and South America

Participation in trade expo

THE MATERIALS SHOW & ^{PREMIEREVISION} sport

Thank you!
