

EXHIBEN MEXICANA

ACRYLIC DISPLAYS SOLUTIONS

¿WHO WE ARE?

Exhiben Mexicana is a company with over 38 years of experience dedicated to the manufacture of displays and point-of-sale products, specializing primarily in materials such as acrylic and plastics in general. We have two production plants located in León, Guanajuato, where we develop both standard and customized solutions for our clients.

? WHAT WE DO?

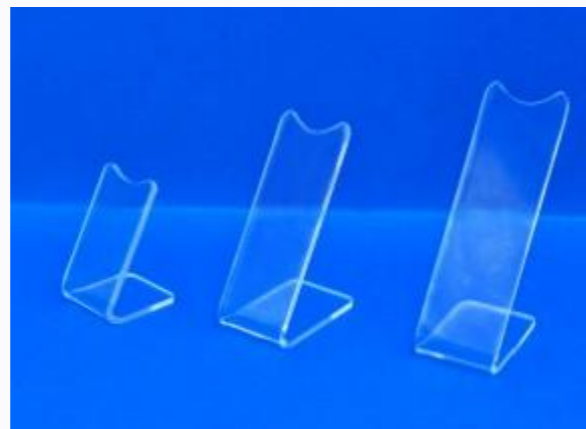

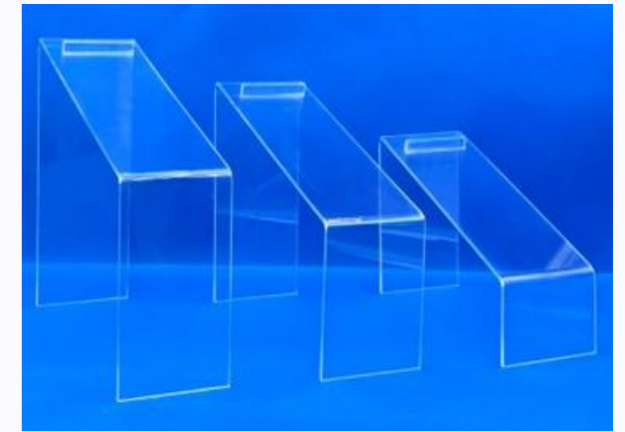

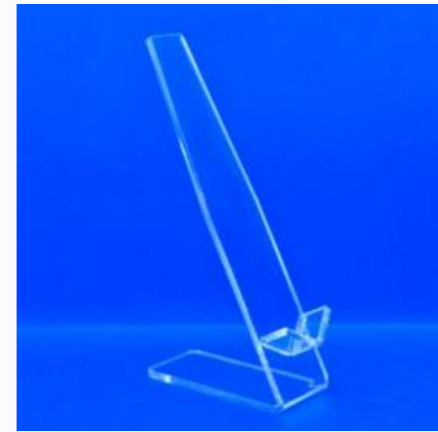

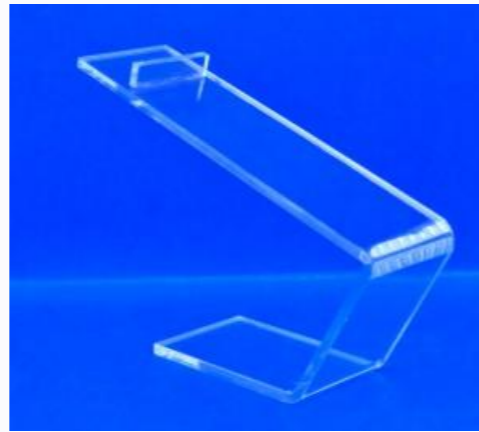

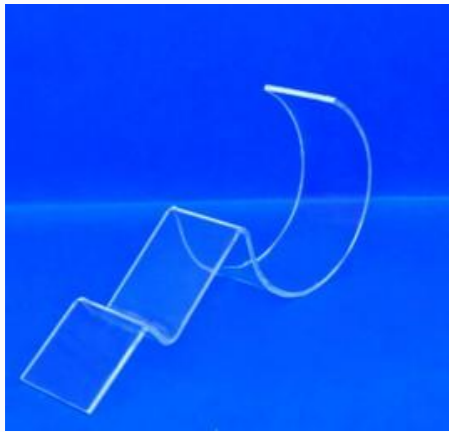

We currently offer a line of more than 70 products for immediate delivery, and we complement our operation with a wide range of special projects made to order, which represent the majority of our production.

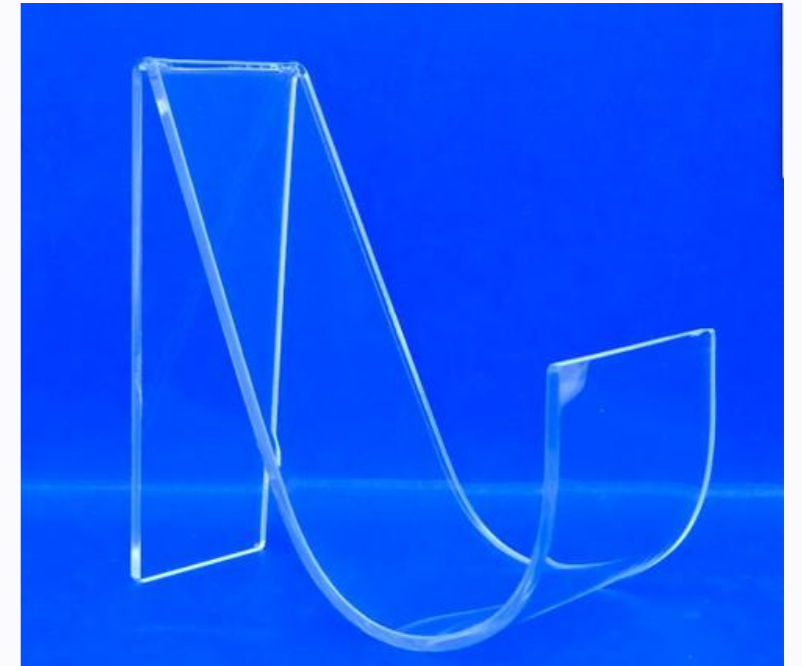

- **Product line:** Displays made of clear acrylic, focusing primarily on women's, men's, and children's footwear, as well as accessories such as bags, belts, and wallets. We also offer trays, shoe horns, price tags, and display towers, available for immediate delivery.
- **Customized:** Specially designed displays tailored to each client's needs. We can quote any project you have in mind and personalize products with your brand or logo.
