A NEW WAY TO ENJOY

Mixology

WHAT IS ELIXIR MIXER?

A fine combination of fruit, herbs and spices 100% natural. Elixir Mixer is a new way to prepare cocktails with or without alcohol in a practical and simple way. All you need to do is choose your favorite Elixir flavor and add the distillate of your choice.

PRODUCTION PROCESS

The process begins with the reception, washing and disinfection of the freshest fruits. Afterwards, they are processed into a liquid formula, which is then cooked and infused with spices that give off fine scents and exquisite flavors. The formula is then filtered, bottled, labeled and packaged for sale.
