

**SAFETY
FOOTWEAR**

SINCE 1934

COMANDO

MANUFACTURING GROUP

SEMBLANCE

Founded in **1934**, in the city of Tampico Tamaulipas. Three years later a workshop was established in the City of Leon, Gto. Where nailed and sewn shoes were made until the **Good Year Welt** process was mastered.

This manufacturing process led us to export cowboy boots and leather shoes, until the Good Year Welt process was mastered. This manufacturing process led us to export cowboy boots and leather shoes, those were ours first achievements in the pursuit of our Mission where mastery of the **Good Year Welt** process led us to develop technologies, applications and designs suitable for the mart.

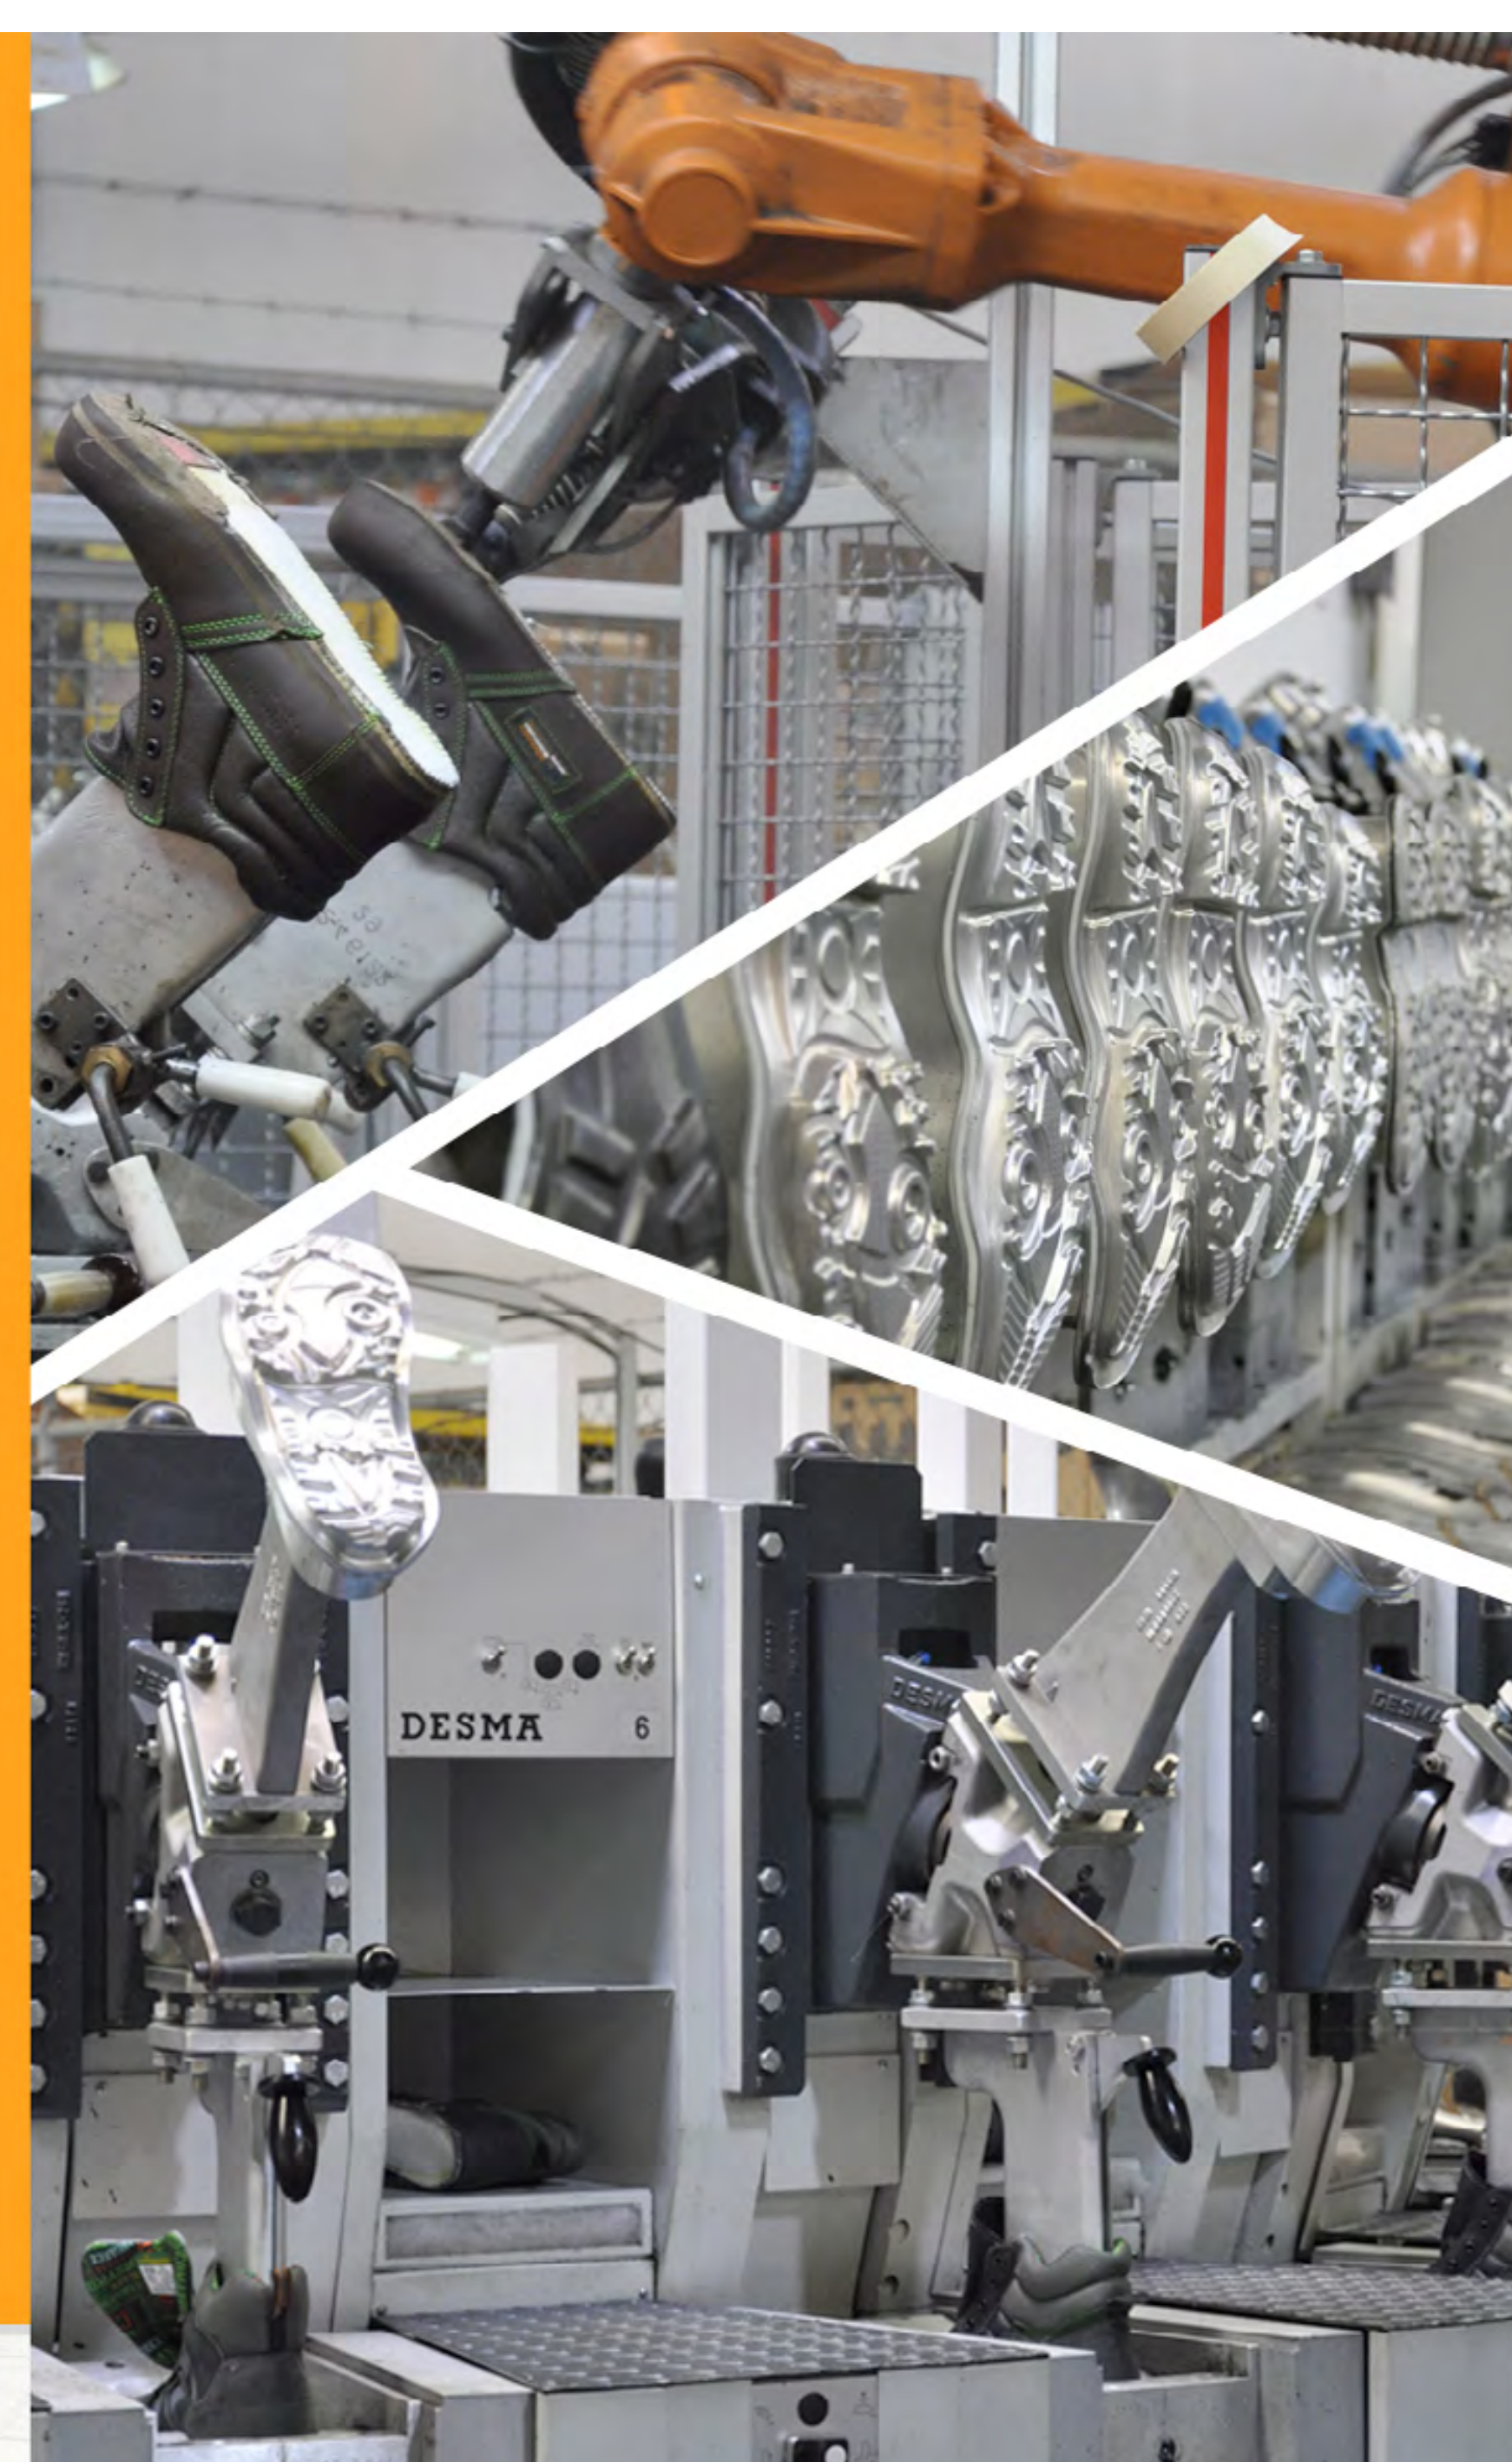

SEMBLANCE

We install technology in machinery for injection direct to the cut and Vulcanized of the Sole, achieving the acceptance of our product in Mexico and in the Foreign.

Today we proudly have state-of-the-art technology for the manufacture of footwear, where we guarantee the quality and safety of this complying with the national and international standards; Each product Comando contains unique competitive advantages in the market, as well as our exclusive and patented materials.

High performance and improvement have been the mission that since 1934 GRUPO INDUSTRIAL COMANDO has with all its footwear lines and that has made leaders in technology and innovation to achieve the demands and expectations of our user.
